

## **Peter Holtgreive**

Peter Holtgreive is presently the Director of Manufacturing at DSC Window Fashions in Arvada, Colorado. In his short tenure at DSC, Mr. Holtgreive has reduced a backlog of 1800 orders at over a 30 day production lead time down to less than 300 orders and the lead time to under 10 days on average. His transition from 15 years of electronic related manufacturing into the window fashion industry has been seamless.

In previous lives, Mr. Holtgreive has been the Director of Operations for Mesa Laboratories, the Manufacturing Operations Manager for Wytan Corporation, and Vice President of Operations of Echo Flight, Inc. to name a few.

Mr. Holtgreive holds a MBA from the University of Phoenix and a Bachelors Degree from Colorado Technical University.

Today, Mr. Holtgreive will be sharing with us how DSC Window Fashions has minimized the affects of this present economic crisis.
